

Player Feedback Form

Aldershot and Farnham HC

ENGLAND
HOCKEY

Policy no AFHC CP25v4

Individual player feedback is important as it helps players focus on specific areas of their ability that they can work on to try and improve. Players receiving this feedback should view it as constructive and try and improve particularly in the areas identified as not as good as others.

Where practically possible, players should receive feedback in a formal manner from the same coach so as to standardise what is being viewed.
